PROFESSIONAL SUMMARY

Full Stack Software Engineer from Colombo, Sri Lanka, with a track record of designing and delivering scalable web and mobile applications for local and international clients. Skilled in backend development with Java (Spring Boot, Hibernate ORM), Node.js (Express) and PHP, paired with responsive frontends built in React, React Native, TypeScript and Tailwind CSS. Built end-to-end solutions including full-stack e-commerce platforms (Admiria, ClickLK), an automated catalog management system and an ESP32-based IoT local web server. Experienced in RESTful API development and database optimization (MySQL, MongoDB), with a strong focus on secure coding. Completing a BSc (Hons) in Software Engineering at Birmingham City University; certified in Ethical Hacking (Cisco), AI/ML (SLIIT) and Python (University of Moratuwa). Fluent in English and Sinhala..

TECHNICAL SKILLS

- **Programming Languages:** Java (Java SE, Java EE), JavaScript, TypeScript, PHP, Python, SQL
- **Frontend Development:** HTML5, CSS3, Bootstrap, Tailwind CSS, React, Next.js
- **Backend Development:** Node.js, Express.js, Hibernate, RESTful APIs
- **Mobile Development:** Android, React Native
- **Databases:** SQL / Database Management Systems, MongoDB, NoSQL Databases
- **Testing & Version Control:** Git/GitHub Workflows, Unit and Integration Testing (JUnit, Jest)
- **Design & Media Tools:** Figma, Canva, CapCut (Video Editing)
- **Content & Creative:** Content Creation, Video Editing, UI/UX Design
- **Concepts:** Object Oriented Programming, Object Oriented Design Patterns, Data Structures and Algorithms, Software Testing and Quality Assurance, Project Management, Artificial Intelligence and Machine Learning, Cyber Security (Ethical Hacking), IoT and Robotics Application Development
- **Soft Skills:** Problem solving, team collaboration, mentoring, client communication, time management

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer — ZyCode Software Solution (Pvt) Ltd | 2023 – Present

- Lead full stack development projects using Java, JavaScript, PHP, HTML and CSS.
- Architect scalable web applications with robust backend systems and responsive user interfaces.
- Collaborate with cross-functional teams to deliver enterprise-level solutions, implementing RESTful APIs and optimizing database performance.
- Manage the complete software development lifecycle from requirements analysis to deployment and maintenance.
- Mentor junior developers and establish coding standards to ensure high-quality deliverables.
- Successfully launched multiple client projects while maintaining system reliability and performance across diverse technology stacks.

Freelance Web Developer — Fiverr (www.fiverr.com) | 2022 – 2023

- Delivered custom web development solutions to international clients across diverse industries.
- Built responsive websites, e-commerce platforms and web applications using Java, PHP, JavaScript, HTML and CSS.
- Completed 50+ projects, from simple business websites to complex full-stack applications, with a 98% client satisfaction rate.
- Managed project timelines, client communications and technical requirements under tight deadlines.

EDUCATION

- **BSc (Hons) Software Engineering (Top-up Degree) — Birmingham City University, United Kingdom | 2025 – Present**
 - Relevant modules: Business Component Development, Cyber Law, Data Structures and Algorithms, Handheld Device Programming (Android Development), Object Oriented Design Patterns, Research Methodology, Robotics Application Development and IoT, UI/UX Engineering
- **Higher Diploma in Software Engineering — Java Institute for Advanced Technology | 2023 – 2025**
 - Relevant modules: Object Oriented Programming Concepts, Software Engineering I and II, Web Programming I (HTML, CSS, JavaScript, PHP), Web Programming II (Java), Web Component Development, Database Management Systems, NoSQL Databases, React Native, Handheld Device Programming, Software Testing and Quality Assurance, Project Management, Mathematics for Computer Science, Computer Hardware and Networking, Electronics for Software Engineering
- **Advanced Diploma in English (ABE Endorsed), Distinction — British Trinity Academy of English | 2024 – 2025**
 - CEFR-aligned programme covering advanced grammar, professional speaking, writing and business communication.
- **GCE Advanced Level, Technology Stream (Engineering Technology) — Piliyandala Central College | 2019 – 2022**
 - Science for Technology: C; Engineering Technology: C; Information Communications Technology: S

- **GCE Ordinary Level — Batuwandara Junior College**
 - Mathematics: B; Science: C; Commerce: B; English (Second Shy): B
-

CERTIFICATIONS

- AI/ML Engineer Programme, Stages 1, 2 and 3 — SLIIT (Stage 1 and 2: Jul 2026, Stage 3: Aug 2026)
 - Ethical Hacker — Cisco (Aug 2026)
 - Python Programming — University of Moratuwa (Jul 2026)
 - Python for Beginners — University of Moratuwa (Jul 2026)
-

LANGUAGES

English (Fluent), Sinhala (Native)

INTERESTS

Software project development, project management, game development, UI and graphic design.
